AMAN SINGH

DATA SCIENCE & SOFTWARE DEVELOPER | B.TECH CSE — 3RD YEAR

Prayagraj, Uttar Pradesh • +91 9450191281 • singhaman15008@gmail.com • linkedin.com/in/amansingh • github.com/amansingh

OBJECTIVE

Computer Science Engineering student seeking an internship to apply skills in Python, Java, SQL, web development, and machine learning. Eager to contribute to real-world projects while strengthening software development and problem-solving skills.

EDUCATION

B.Tech — Computer Science Engineering | UPTTI — **2025–2028**

Diploma — Electrical Engineering | Handia Polytechnic — **2022–2025**

Intermediate (12th) | CBSE Board — **2022**

High School (10th) | CBSE Board — **2020**

TECHNICAL SKILLS

Languages: Python, Java, C, C++, SQL
AI / ML: Machine Learning, Deep Learning, Computer Vision, Scikit-learn
Web Development: HTML5, CSS3, JavaScript, Flask, Responsive UI
Libraries: Pandas, NumPy, Matplotlib
Databases & Tools: MySQL, MongoDB, Git, GitHub, VS Code, Jupyter Notebook, Google Colab

INTERNSHIP & EXPERIENCE

National Internship Program — Pega | Aug–Sep 2026

- Completed 60 hours of industry-integrated training in Pega Platform.
- Gained hands-on exposure to workflow automation and low-code application development.
- Worked on a Movie Ticket Booking Management Application involving workflow and case management.

Virtual Internship Program — ServiceNow | 2026

- Learned ServiceNow System Administration fundamentals and platform configuration.
- Worked with Flows, Automated Test Framework (ATF), and Reports.
- Explored Agentic AI concepts and ServiceNow CSA exam preparation.

PROJECTS

Movie Ticket Booking Management Application

Technology: Pega Platform, App Studio, Case Management, Workflow Automation

- Developed a movie ticket booking management workflow using Pega App Studio.
- Configured case lifecycle, data objects, business rules, and automated workflow processes.
- Implemented booking validation, approval/routing, notifications, and automated case processing.

AI Job Scam Detector | *Python, Flask, Scikit-learn, MySQL*

- Developed an ML-based web application to identify potentially fraudulent job postings.
- Implemented data preprocessing and classification using Scikit-learn.
- Integrated Flask for the web interface and MySQL for data management.

College Bookstore Web Application | *HTML, CSS, JavaScript*

- Built a multi-page bookstore with login, registration, catalogue, and cart functionality.
- Added department/semester-wise books, pricing, search, filters, sorting, and Add-to-Cart features.
